Vitamin D Testing

Reimbursement Policy ID: RPC.0059.72KF

Recent review date: 09/2026

Reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare and Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. The health plan may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.

In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including Current Procedural Terminology (CPT); the Healthcare Common Procedure Coding System (HCPCS); and the International Classification of Diseases,10th Revision, Clinical Modification (ICD-10-CM), and other relevant sources. Other factors that may affect payment include medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other health plan policies, and other relevant factors. These factors may supplement, modify, or in some cases supersede reimbursement policies.

This reimbursement policy applies to all health care services billed on a CMS-1500 form or its electronic equivalent, or when billed on a UB-04 form or its electronic equivalent.

To the extent that any procedure and/or diagnosis codes are specified in this policy, such inclusion is provided for reference purposes only, may not be all inclusive, and is not intended to serve as billing instructions. Listing of a code in this policy does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by federal, state, or contractual requirements and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies and Guidelines may apply.

Policy Overview

This policy outlines reimbursement criteria for Vitamin D testing of members who display signs and/or symptoms of, or are at risk for, vitamin D deficiency.

Exceptions

N/A

Reimbursement Guidelines

The health plan will consider one vitamin D test per date of service, and no more than four tests per span of twelve months, as reimbursable per member.

Vitamin D testing must be reported with CPT code(s) 82652 or 82306 and is reimbursable with a medical condition that indicates the patient either shows signs and/or symptoms of vitamin D deficiency or is at risk of vitamin D deficiency. Refer to the applicable list of approved vitamin D testing diagnosis codes effective for claim dates of service October 1 to September 30 of each year. These lists are provided in Appendix A and B.

Definitions

Vitamin D
Vitamin D refers to a group of fat-soluble vitamins that are chemically related to steroids. In humans, the most important types of Vitamin D are D_2 (calciferol) and Vitamin D_3 (cholecalciferol).
